

## **Thank You, Tour Volunteers!**

The ***Road to Healthy Skin Tour*** celebrated its fifth anniversary in 2012. A sincere thank you to the 437 physicians who volunteered to give free skin cancer screenings. To date, the Tour has traveled more than 100,000 miles and conducted 16,000 exams. In that time, nearly 7,000 suspected cancers and precancers, including 295 melanomas, have been detected.
