"CO2LIFT should be carried by any practice that promotes skincare - their product is truly both unique and effective!"

WHAT IS CARBOXYTHERAPY?

Carboxytherapy consists of the therapeutic use of carbon dioxide (CO2) in its gaseous state. This technique has been medically used since 1933 through subcutaneous injections and percutaneous CO2 warm bath.

EXPERIENCE CO2LIFT RESULTS

- Increases Skin's Hydration >117%
- Lifts and Tightens Skin
- Reduces Wrinkles and Lines
- Smooths Skin Texture
- Reduces Pore Size
- Brightens Skin Tone
- Reduces Redness and Swelling

HOW IS CO2LIFT TREATMENT MASK DIFFERENT FROM OTHER GEL MASKS?

CO2LIFT TREATMENT MASK produces similar changes in the dermis as subcutaneous CO2 injections. Oxygen concentration and micro-circulation are increased and there is recovery of connective tissue.

THE CARBOXY MOUSSE MOISTURIZER

Facial hydration increased progressively during use of the CO2LIFT Carboxy Mousse Moisturizer, more so when used between treatment mask use.

Skin hydration remained at values greater than baseline and even increased relative to treatment phase values after a period of no treatment. This suggests that the CO2LIFT Carboxy Mousse Moisturizer elicited changes that allow the skin to improve retention of moisture.

BEAUTY CLEANSING TABLETS

When dissolved in water, tablets create a cleanser for Face, Hair & Body.

FACE Cleanser that removes surface oils, makeup, unclogs pores and leaves skin feeling radiant.

HAIR Rinsing hair and scalp with CO2LIFT Beauty Tablet cleansing water eliminates pore clogging dirt and grease. Scalp is revitalized and natural shine is revealed.

BODY Reduces muscle soreness.

RESULTS OF CO2LIFT TREATMENT MASK

With the improvement of blood circulation and the efficient discharge of waste from your skin, you will experience an immediate overall brightness and radiance to your face and neck. Each CO2LIFT treatment builds on itself and achieves new levels of hydration, revealing remarkable anti-aging results.

ELASTICITY AND FIRMNESS

Carbon dioxide promotes the activity of protein synthesis. As a result, this directly improves the elasticity and firmness of your skin. CO2LIFT TREATMENT MASK improves collagen production, reduces fine lines and wrinkles, and over all improves the texture and smoothness of your skin. This is important for proper anti-aging management.

HYDRATION

CO2LIFT TREATMENT MASK has been proven to increase the skin's hydration by >117% after just one application, and maintain over 50% hydration after 2 weeks; Hydration reduces inflammation and increases blood circulation which improves the overall health and appearance of the skin.
