Our latest body contouring technology increases muscle tone and burns fat. Sound too good to be true? Read on to find out more about Futura Pro, the newest addition to our Body Sculpting collection.

**BENEFITS OF FUTURA PRO**

- Shrinks fat cells and builds muscle tone using a combination of ultrasound and electrical muscle stimulation.
- Each treatment is equivalent to one week of cardio and weight training at the gym.
- Two areas can be treated simultaneously. No downtime.
- You can feel increased muscle strength after the first treatment.
- Many patients report feeling the same endorphin release as they do after traditional exercise.

**FREQUENCY & PRICING**

- 6 weekly or every 1-2 weeks treatments are needed to see results. After your desired results are achieved, you can maintain with your own exercise program or continue with weekly or monthly Futura Pro treatments as long as you like.
- Your first 6 treatments are $600 each. Maintenance treatments are $500, after the original 6 treatments.
