WHAT'S ON TREND

A brief on hot skin care topics for the busy clinician.

HAIR GROWTH TREATMENTS THAT ACTUALLY WORK

However you define it – male, female, young and old - everyone wants good hair. But is there anything that really works?

There is still some serious debate according to Drs. Suneel Chilukuri, S. Manjula Jegasothy, Mark Rubin, Kevin Smith, Marc Darst, Candace Spann, Jeanine Downie, Vivian Bucay, Julie Woodward and Joe Niamtu.

In Houston, TX, Dr. Suneel Chilukuri shares his regimen that is leading to some great results. "I am finding remarkable results utilizing patient-rich-plasma (PRP) for hair growth," he says. "I prepare the scalp for one month by pre-treating with topical Minoxidil and oral Viviscal Professional twice daily. If the patient is a man, I recommend Finasteride 1 mg per day. Our patients are so happy with the results that they send in friends and family members."

Dr. S. Manjula Jegasothy also uses PRP though in a slightly different overall regimen. "For the last 6 months or so I've been doing PRP injections, commonly
