OUR APPROACH IS
MULTI-TARGETING

The only formulation that addresses all 4 stages of healthy hair growth.

I. REBALANCE
The formulation must help stabilize harmful levels of DHT and stress hormones to reduce follicle damage.

II. REPAIR
Support follicle restoration while fighting free radicals and inflammation at the root.

III. REVITALIZE
Help revive dormant follicles and increase scalp circulation to improve their function.

IV. REGROW
Restore the hair growth cycle and deliver to follicles the nutrients they need to build hair
