

# TransFORM Body Treatment

with TriHex Technology<sup>®</sup>

Designed specifically for the body, our clinically proven formula packs a one-two punch: Use it daily for firmer, tighter, more youthful looking skin—and you can also apply it after body-sculpting procedures to help speed up and improve results.

- **Patented TriHex Technology<sup>®</sup>** supports the production of new, healthy elastin and collagen to improve the appearance of your skin's texture, firmness, and crepiness.
- **Peptides in ALASTIN's patented LipoDRONE<sup>™</sup>** delivery system accelerate the natural removal of broken-down fat cells, enhancing results post-body-sculpting procedures.
- **Key botanicals** hydrate the skin from the inside out by supporting the production of hyaluronic acid and glycosaminoglycans.

## Improved appearance of skin texture, firmness and crepiness when used daily as part of your skincare regimen

**63% reduction in the appearance of crepiness**  
after 8 weeks of use

Baseline

8 Weeks

Female, Age 60  
**ALASTIN Skincare<sup>®</sup> Regimen:** TransFORM Body Treatment applied to arms twice daily and no procedure was done.  
**Imaging Equipment & Analysis:** QuantifiCare LifeViz<sup>®</sup> Infinity and roughness measurement.  
**Reference:** Data on file at ALASTIN Skincare<sup>®</sup>.
