

ZAFFIRO
DEVICE

BEAUTIFUL
FROM EVERY ANGLE

NEAUVIA™
NORTH AMERICA

WHAT IS ZAFFIRO?

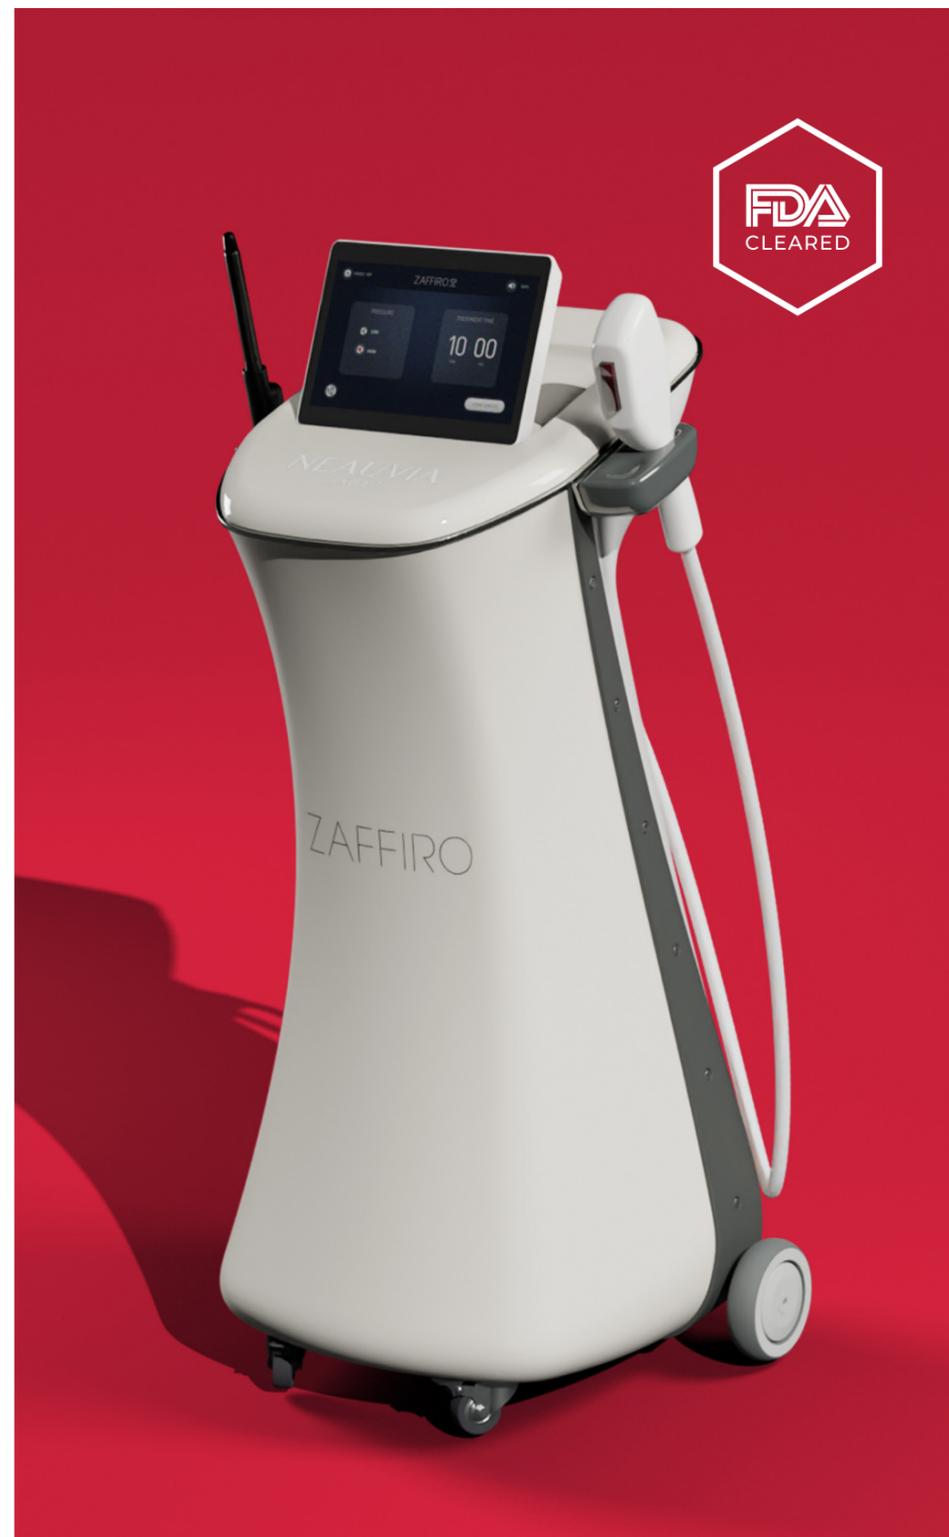

Healthy, glowing skin from head to toe

Zaffiro is the only medical aesthetic device that combines two advanced synergistic technologies—hydro-exfoliation and near-infrared (NIR) technology—to quickly and comfortably provide skin tightening with zero downtime.

The perfect combination to achieve immediate skin tightening results safely, in 40 minutes or less.

- > Reduces the appearance of fine lines and wrinkles
- > Improves elasticity, resilience and texture
- > Increases fibroblasts up to 40% and firmness by 25%, 21 days post treatment, as demonstrated in an in vivo clinical study*

*Zerbinati N, Galadari HI, Kubik P, Ivanov S. Neauvia Symposium. Holistic approach in treating the mid-face. Neauvia Smart Combination Therapy (SCT) – IMCAS Paris 2020.

HOW ZAFFIRO WORKS

Zaffiro combines two impressive technologies in a single device

SMART HYDRO TECHNOLOGY

Using three streams of accelerated microscopic droplets using smart hydro technology, the handpiece delivers a precise, effective, comprehensive and customized skin treatment to achieve synergistic:

- > **Exfoliation and cleansing**
- > **Lymphatic drainage**
- > **Infusion of active ingredients to boost hydration**

ADVANCED NEAR-INFRARED TECHNOLOGY

The thermo-lifting handpiece emits near-infrared energy to generate gradual heating of the deep layer of the dermis.

This advanced thermo-lifting technology works to shrink aged collagen fibers and thicken new ones.

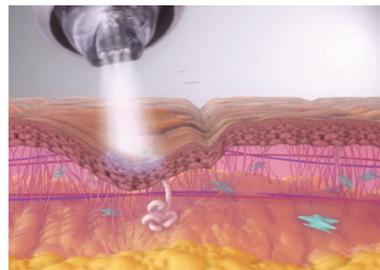

Collagen remodeling helps:

- > **Improve skin firmness and elasticity**
- > **Improve the appearance of fine lines and wrinkles**
- > **Encourage tightening and lifting of the skin**

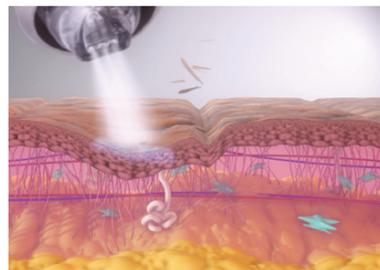

SMART HYDRO

Using smart hydro technology, the handpiece gently emits three accelerated streams of water infused with one of our five treatment formulas.

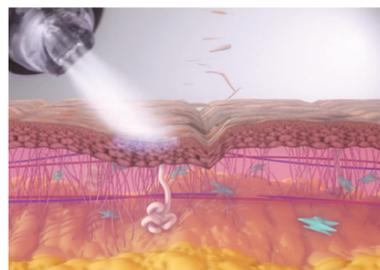

By varying the angle and pressure of the stream, skin is exfoliated and deeply cleansed. This results in the immediate improvement of skin clarity, texture and brightness, while simultaneously reducing the signs of fatigue.

> 30–45° for cleansing + exfoliation

> 60–70° for cleansing + lymphatic drainage

> 90° for infusion of treatment formulas

FIVE dedicated treatments

HA SKIN HEALTH

A high-quality low molecular weight hyaluronic acid that provides anti-aging benefits.

SOOTHING SKIN FORMULA

Formulated with a well-balanced combination of ingredients from natural plant extracts, this fluid is designed to help restore and maintain the skin's protective barrier.

ACNE FORMULA

Designed for acne-prone skin, this formula helps reduce acne and improves scarring, while soothing and conditioning the skin.

SKIN BRIGHTENING

Developed with innovative brightening agents that help to decrease melanin production in skin cells, this formula helps reduce the appearance of blemishes and hyperpigmentation.

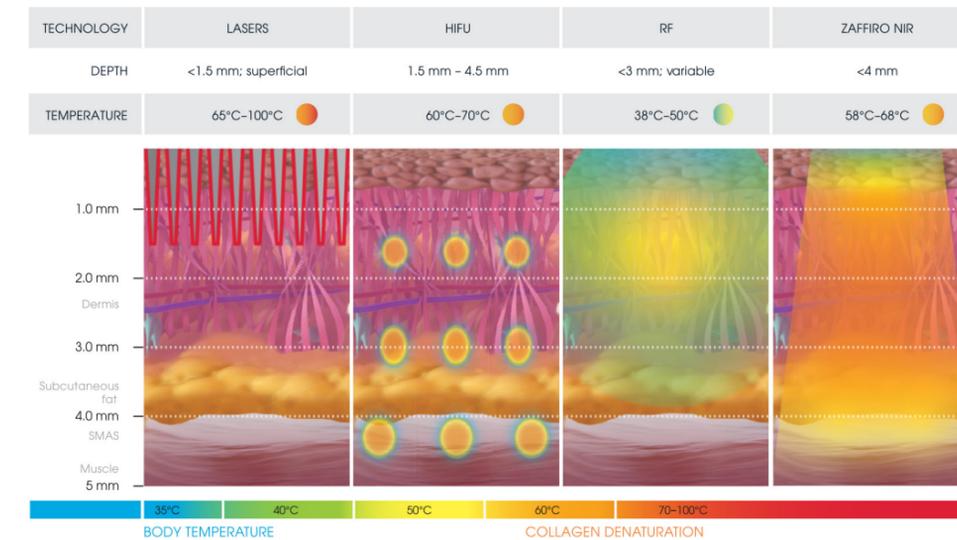

HAIR NOURISHMENT

Created with specific growth factors to help promote hair growth, reduce porosity, increase hair strength and reduce breakage.

NEAR-INFRARED TECHNOLOGY

TARGETED ENERGY

HIFU, high intensity focused ultrasound; IR, infrared; RF, radio frequency

This diagram represents the structure of the skin in cross-section, including the epidermis, dermis and subcutaneous layers. The different areas of the face and body will have varying depths and thickness of tissue layers, and will vary from person to person.

*Zerbinati N, Galadari HI, Kubik P, Ivanov S. Neauvia Symposium. Holistic approach in treating the mid-face. Neauvia Smart Combination Therapy (SCT) – IMCAS Paris 2020.

Zaffiro uses highly targeted near-infrared energy, delivered through a durable sapphire crystal, to gradually heat the skin's dermis.

This heating process stimulates the skin's repair mechanisms, causing aged collagen fibers to shrink and new fibers to thicken.

As the structure of the collagen fibers improves, the skin begins to tighten and lift. This results in improved skin firmness and elasticity, which helps to improve the appearance of fine lines and wrinkles.

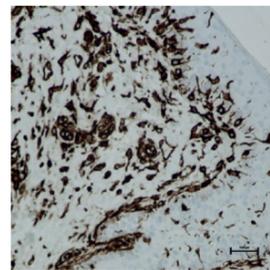

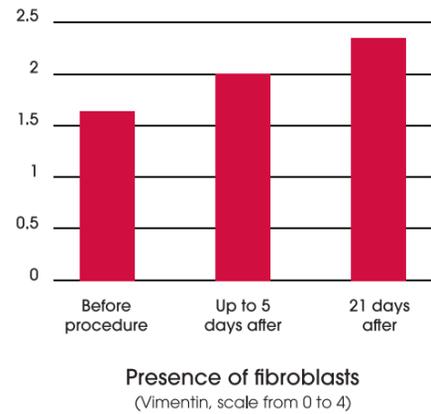

ZAFFIRO TREATMENT GEL

Zaffiro treatment gel with active ingredients supports targeting fibroblasts, helps to improve thermal skin resiliency and soothes skin.

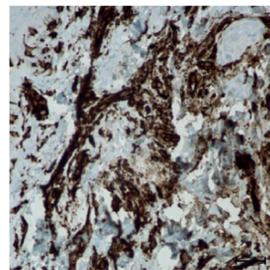

NEAR-INFRARED TECHNOLOGY

ACTIVATES & INCREASES FIBROBLASTS

An in vivo clinical trial demonstrated an up to a 40% increase in fibroblasts 21 days after one Zaffiro treatment.*

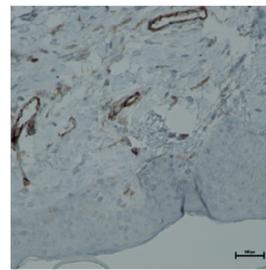

Before treatment

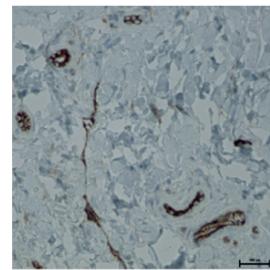

21 days after one Zaffiro treatment

IMPROVES ANGIOGENESIS

In the same trial, an increased level of CD31 indicated a lasting angiogenesis increase 21 days post treatment.*

Before treatment

21 days after one Zaffiro treatment

ELASTICITY COMPARISON

Cutometric results demonstrated an up to 25% increase in skin elasticity 21 days after one Zaffiro treatment.*

*Data on file

Additionally, when Smart Combination Therapy with Neauvia fillers was used, results showed a significant improvement – a 60% increase in skin elasticity.*

SCT, Smart Combination Therapy

KEY FEATURES

EFFECTIVE

Thermal energy is uniformly delivered to deep dermal areas, resulting in a nearly 40% increase in fibroblasts after a single treatment.*

QUICK ROI

Device pays for itself in 4 1/2 months, and uses value-priced consumables.

ERGONOMIC DESIGN

Each handpiece is designed to provide maximum comfort for the provider, to enable quick and easy treatment of patients.

SAFE

The durable sapphire crystal provides uniform heating and cooling in a three-step process to minimize discomfort and avoid burns.

SMART ENERGY

Energy output levels can be adjusted easily for a variety of areas and indications.

*Data on file

SLEEK DESIGN

State-of-the-art technology, design and functionality are a hallmark of the Zaffiro Device.

PATIENT POSITIONING

Image is not intended to represent treatment benefits. Results will vary depending on the treatment type, regimen and patient.

SAFE

- > No anesthetic required
- > No downtime
- > For all Fitzpatrick skin types
- > Treatments can be performed any time of the year

FAST

Zaffiro is a quick treatment with low consumable costs, which allows for affordable treatment pricing.

“Zaffiro is the most user friendly and easiest treatment we have ever used in our office. It provides immediate results, which helps patients maintain their enthusiasm for this treatment. Of all my patients who receive Zaffiro treatments, 98% are satisfied, and many have seen persistent improvement in as little as two sessions.”

Joshua Weitz, M.D.
Board-certified Dermatologist

IMMEDIATE RESULTS

Patients will leave your practice with their skin looking brighter, firmer and refreshed.

ROI POTENTIAL

40 MINS OR LESS average treatment time
DEVICE PAYS ITSELF OFF quickly and reliably

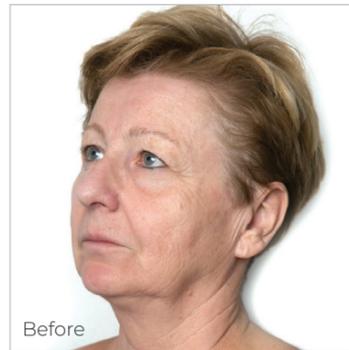

*Depending on the area(s) treated

SUSTAINABLE REVENUE

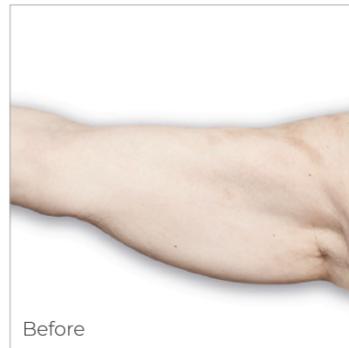

With low consumable costs and quick treatment times, Zaffiro has the potential to continue to bring in significant income, sustainably boosting long-term revenue.

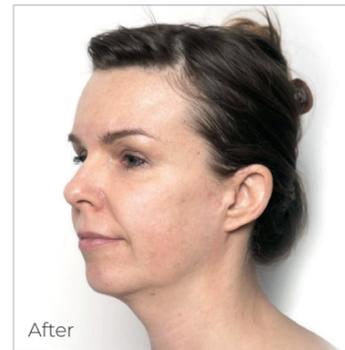

REAL RESULTS

One treatment of Zaffiro Smart Hydro and Advanced Near-Infrared Technology immediately contours the face and lifts cheeks, reduces severity of crow's feet and nasolabial folds, and improves skin texture and tone.

Three treatments of Zaffiro Advanced Near-Infrared Technology improves sagging skin on arms to tighten, lift and tone.

One treatment of Zaffiro Smart Hydro and Advanced Near-Infrared Technology improves jaw definition, skin density and tone, and reduces visibility of nasolabial folds and marionette lines.

One treatment of Zaffiro Advanced Near-Infrared Technology improves skin texture resulting in smoother, denser, younger-looking skin.

Actual patient results. Results will vary depending on the treatment type, regimen and patient.

NEAUVIA COMMITMENT

PRECISION, VERSATILITY AND PRACTICALITY

- > **Neauvia precision technology** allows for careful control and adjustment of energy delivery to optimize treatments for both results and patient comfort.
- > **Neauvia versatility** means each device is carefully designed to treat a variety of indications and areas – safely and effectively.
- > **Neauvia practicality** puts in practice real-world input from providers and practitioners to ensure ease of usability and practical pricing that helps providers offer world-class treatments at reasonable prices.
- > End-to-end supplier of Zaffiro with in-house design, manufacturing, service and support.
- > Device comes with a standard one-year warranty and an optional two-year extended warranty.
- > Educational support to master innovative technologies and provide optimized results while focusing on patient safety, comfort and recovery. Individualized hands-on training, step-by-step guides, high-quality video resources and virtual training capabilities.
- > Dedicated business development managers help you integrate Neauvia products into your practice.
